BARGOR WHIG. FRIDAY, APRIL SHOP

CONNECTICUT TRIUMPHANT!

- We have the Connecticut Courant of Tuesday, giving us the glorious news, that Connecticut is again true to herself and her principles, that she maintains her ground in opposition to the mad schemes of the administration. She has declared in her "sober second (hought," her proper insignificance, and men are chosen in their places who will represent the true interwate of the people.

The victory in Connecticut is complete. The Whigh have elected their Governor, Lieuten-ant Governor, a very Erge majority in both branches of the Legislature and have GAINED SIX WHICH MEMBERS OF CONGRESSE The following are the names of gentlemen elected:-- John Trumball, William L. Storrs, Thomas W. Williams, Thomas B. Qaburne, Truman Sinith, and John H. Rockway.

NORTH EASTERN BOUNDARY.

The last Burlington Free Bress contains communication from Mr John John an the gengovernment, to survey the ' disputed territory,' and mark the line. The facts which he gives are valuable, coming as they do, from an individual whose means of information have not been superceded by any one, we therefore copy the article entire.

The North Eastern boundary of the State of Maine having of late created some excitement I take the liberty of stating some facts in relation to the subject.

These facts were mostly derived from actual survey, made by myself in the years 1817 and principal surveyor on the part of the United States under the fifth article of the trea ty of Ghent, which was made and signed on the 24th December, 1814.

The East line of the State of Maine (then Massachusetts) was by commissioners duly appointed, fixed on the Schoodic, now St. Cinix river from where it enters Passamaquoddy Bay. to the monument erected at its source in Lat 450 46' North, and the report of this was accepted by the two governments in 1787 or 8. In the year 1817. I commenced at the said monu ment and extended the line due North At 13 miles Houlton lies on the west side of this line. about 12 miles east is Woodstock on the river St. John. At 41 miles is Mars Hill. This hill is wholly insulated and surrounded by low swampy land. The hill rises about 1000 feet from its base and the line runs 42 chains east of the east base, in the low swampy land. The representation on the map made by S. L.

Dashiell at the city of Washington in 1830, that Mars hill extends across the line, and that there westerly, is wholly false, and I am . much at a loss to know how his map could have obtained the name of tofficial,' for certainly it is only an official deception to favor the British claim. This map is called by Mr Buchanan No 2.

Pursuing northerly on the line 581 miles is the river Listock, (improperly called Ristock and Areostook.) To substantiate this fact I will here observe, that two aged Indian chiefs were with me at this river, who both asserted that the only and true Indian name was Listook.' The line crosses this river three in a seast of the St John, and about 5 following life, course of the river. About half a mile east of the line is an extensive fall, and west of the line the river is navigable with flat haste for considerable dis-The river 'Tobique,' which has been frequently mentioned in the papers, falls into the east side of the St John about one and a quarter miles below the Listook.

the rivers that empty into the river St. Lawrence from those which fall into the Atlantic west for about 50 m les, and thence southwesterly about 250 miles to the liead of Connecti-cut rivation part of which has ever been properly explored, and the aubmission to the King of the Netherlands was made with this extraordinary omission.

THE DIFFERENCE.

I cannot be denied that whilst many medicines which are recommended to the public, have not even the negative merit of harmlesaness, there are others which it would be great injustice indeed, and suicidal prejudice to involve untried, in a common condemnation. And when a medicine comes en-dorsed with all the great names that have adorned the annals of the medical profession, and warranted by the seal and signature of long and uniform success, its proprietor makes no unreasonable demand upon the public confidence, when he claims for it a superior consideration:

This much is placed beyond a doubt by daily testimonies which would be given on oath, and for this much Dr. W. Evens can conscientiously request confidence.
